

ELITE

Quartzite - ●●●●●●

Elite is a white and cream quartzite closely resembling a beautiful Calacatta marble but is much harder and isn't susceptible to scratching and etching issues experienced with marble. Elite has a creamy white background with delicate grey and gold veining. This beautiful material features a calm, neutral color palette and is why so many are incorporating this stone into their commercial or residential projects. It is recommended to view slabs as movement and color range will vary shipment to shipment.

ORIGIN: Brazil

USES: Floors, Walls, Countertops, Interior, Exterior
