15-YEAR WARRANTY

ENVI™ Porcelain Surfaces are backed by our 15-year warranty. See complete details at: EnviSurfaces.com/porcelainwarranty

MATERIAL CHARACTERISTICS

ENVI™ Porcelain Surfaces are made from natural materials and may vary in color and shade. Seams will be visible, as porcelain is not a seamless product. Samples are representational, and will not be an exact match to installed material.

*Non-glossy surfaces may exhibit inherent surface variations.
For slab materials, please view full slabs prior to fabrication.

PORCELAIN SURFACES CARE & MAINTENANCE

DAILY CLEANING

For daily cleaning, a damp microfiber cloth is enough. For regular cleaning, we suggest using a neutral liquid detergent with a soft sponge or a microfiber cloth.

MORE INTENSIVE CLEANING

Persistent stains can be removed with a slightly abrasive sponge; if necessary, use a specially formulated stain remover (see table). Do not use steel wool pads, because these would leave metal traces that would then have to be cleaned again.

PRECAUTIONS

Remove any spills of staining liquids (like coffee, tea, red wine), caustic substances (such as oven cleaner), acids and colorants as soon as possible and rinse with water.

Regarding porcelain countertops, you can place hot pans directly on these surfaces, although we recommend the use of trivets to protect the surface over time. Ceramic knives can damage porcelain; so we advise that cutting boards be used. Avoid impacts with corners and edges.

CLEANING AGENTS

Cleaning agents referenced in the table include:

- Alkaline Detergent: Degreasing Agents in general; Ammoniac
- Acid Detergent: Descaler; Pickling Agent for cement residue
- Solvents: White Spirit; Nitro Diluent; Alcohol; Acetone and similar products
- Cream or Powder Detergent: Products for cleaning hard surfaces
- Neutral Detergent: Generic pH-neutral cleaning product

PORCELAIN SURFACES CARE & MAINTENANCE
